

This fee is charged for new Industry-funded studies submitted to the Cancer Consortium. This fee is used to cover the administrative reviews, the scientific review, as well as the document version control, FYI posting, and database tracking and management.

This fee is separate and distinct from the fee the IRB charges for review.

This fee is separate and distinct from the UWHSD charges for oversight and record keeping (if applicable).

Cancer Consortium Protocol Fee	
Amount	\$2,500
Indirect Rate	27%
Total Fee	\$3,175

Fred Hutch utilizes the University of Washington’s indirect policy for clinical trials and charges 27% of total direct costs on clinical trials. Total direct costs include all costs directly charged to the clinical trial, including patient care charges.

The UW policy can be found at the following link <https://www.washington.edu/research/policies/gim-13-facilities-and-administrative-fa-rates/>
